

Proactive Engineering Services

Company Profile

“Proactive” as a manufacturer with a boost of ASNT Level II & III Engineers team. Fabrication of Coded & non Coded equipment's on the basis of vast experience and certifications & approvals. Our main focus, to fabricate & manufacture errorless equipment's skid mounted systems, under observation of qualified and certified engineers.

The accumulated wealth of knowledge and experience of working on different methods & standards of Fabrication with proper quality control, available at the time has put to good use for better equipment manufacturing along with upgraded technology:

- State of the art workshop facility
- Continual Quality Up gradation towards fabrication process
- Best workmanship
- Implementation of Quality Assurance Plan at Floor Level
- Customer satisfaction

Fabrication of equipment's passed through qualified engineers and complies towards best Products. These became a specialized field of operations for **“Proactive”**

Customer - need of single-point responsibility, made it imperative for **“Proactive”** to expand our field of operation from Manufacturing to a “Total Solution Company”. Utilized our expertise towards solutions for customer need and requirements. We worked as an Equipment manufacturing industry for various segments such as Oil, Gas, Pharmaceutical, Fertilizer, Distillery, Power, Water, Environmental and other chemical process industries. with the thrust on continuous up gradation and innovative ideas, coupled with sound basic fundamentals, **“Proactive”** developed its own manufacturing industry.

Sincerity, innovativeness, genuine concern for customer needs, reasonable costs and prompt services are the main features - **“Proactive”** has ample expertise to manufacture tailor-made equipment's for above specified area of business.
